

I am writing to encourage you to keep K-LOVE radio station on the air. K-LOVE serves me personally in that it provides wholesome positive music and talk. I don't have to worry about what my children may hear. I have even heard callers express that they are not Christians, but that they support K-LOVE financially because they know they can trust what is being aired and it's good for their kids. K-LOVE is much more than a radio station, and I have witnessed in my family and community how K-LOVE has supported people with prayer and love that has changed lives. Our community feels that K-LOVE is so important to our lives that we are willing to make some sacrifices to support them financially. Anything you spend your hard earned money on must be of significant value. Thank you for allowing me to express my views.
